## About

A refinery has four aspects of its offsite operations called MCOR. They are managed, controlled, optimized, and reconciled. The profitability and efficiency increase from management to reconciliation, whereas the effectiveness increases from reconciliation to management. This strategy developed by OMS is discussed in the webinar.

## **Speakers**

The speaker, Dr. Suresh S. Agrawal, is the founder and CEO of Offsite Management Systems LLC (OMS) and the academy director of OMS eLearning Academy.

He graduated from the Indian Institute of Technology, Mumbai, India, with a Bachelor of Chemical Engineering. He then obtained a Master's and PH.D. Degrees in Chemical Engineering from Illinois Institute of Technology, Chicago, USA.

Dr. Agrawal has 40+ years of experience in senior technical / management positions with international companies and has successfully managed many advanced refinery process control projects in numerous countries. Dr. Agrawal is a registered professional engineer in Illinois, USA, and is a member of the American Institute of Chemical Engineers and Instrumentation Society of America. He has published and presented 30+ papers in international publications and conferences in the areas of advanced process control. He has also acted as a consultant to several refining and process industries worldwide and delivers training seminars in the areas of his expertise.

## **What will you Learn**

- Four facets (MCOR) of refinery offsite operations, namely, manage, control, optimize and reconcile
- How are effectiveness, efficiency, and profitability affected in the MCOR strategy
- Implementation of “Divide and Conquer” MCOR strategy
- How automation of MCOR strategy can achieve tangible benefits for a refinery
- How adequate staff training can make a difference in managing MCOR steps

## **About OMS eLearning Academy**

- Provides a portal for the continuing education of refinery and related business professionals

- Professionals can make their curriculum from 200+ topics or enroll in 200+ structured courses
- Progressive eLearning mode course can be taken anytime, anywhere, and on any device
- Issues course completion certificate and transcript with Continuing Education (CE) credits
- Offers Flexible plans and subscriptions for both individual and enterprises
